

## Brothertown Crafts Native American Bowl

*As the kids study the history of our country and its original settlers, they can Make a Native American Bowl. Native Americans were self-sufficient and had a history of creating items that were beautiful as well as useful.*

### Supplies:

- 36" Jute or brown colored string
- Bowl Pattern
- Brown Card Stock
- Turquoise (or other color) Beads
- Scissors
- Hole Punch
- Tacky Glue

### Directions:

1. Stiffen the end of the jute/brown string with white glue
2. Use the template and draw outline on brown card stock. Cut out bowl and down the solid lines inside the bowl. Dotted lines on the template are for a guide. Do not draw or cut on these.
3. Punch holes as shown on pattern.
4. Overlap each cut to meet the dotted line next to it and glue in place.
5. Lace jute through one hole pulling all the way through leaving 2" to tie off. Lace around top edge of bowl using a whip stitch. Add a bead at every other hole.
6. Tie off. Trim jute/brown string.

*Authentic Native American Birch bark bowl from the 1800's*
